

ABOUT MBSI

Microbiologists Society, India (MBSI) is a prominent scientific organization dedicated to advancing microbiology through research, education, and community outreach. While MBSI primarily focuses on promoting awareness about health, nutrition, and sustainable lifestyles through seminars, workshops, and events, it has also contributed to environmental initiatives, including efforts aligned with clean river missions in India. The society organizes events and educational programs that highlight the role of microbiology in addressing environmental challenges, such as river pollution. Communities to foster awareness about the importance of MBSI activities to support clean river missions, such as the National Mission for Clean Ganga (NMCG), by promoting sustainable practices and microbial solutions to reduce water pollution.

MBSI's contributions to clean river initiatives are further amplified through its collaboration with academic institutions and scientific communities. Through education, research, and community engagement, MBSI promotes sustainable solutions and fosters a scientific approach to restoring India's rivers, contributing to a healthier environment and improved public health.

CONFERENCE ON

CLEAN AND HEALTHY RIVERS FOR REVIVING JAL SANSKAR AND SUSTAINABILITY

SEPTEMBER 25-26, 2025
(THURSDAY & FRIDAY)

VENUE:
SRI SARVESWARAR AUDITORIUM
NEW ACADEMIC BLOCK, SRMUH

ABOUT THE CONFERENCE

The concept of Jal Sanskar provides the cultural foundation for long-term sustainability. It shifts the perception of rivers from mere natural resources to living entities deserving of respect and care. This mindset helps ensure that technological and policy solutions are not just implemented but also maintained and protected by the community over the long run. The purpose of this conference is to link modern scientific solutions with this deep-rooted cultural reverence for water to build a sustainable future where clean and healthy rivers once again become the vibrant lifelines of our society.
